3) Replace dishwasher (Church Own)	£285
4) Fit Curtain to inside of inside door	£ 85

There is to be a new gas meter fitted at the Church on 9th March – this is through a scheme from the Church of Scotland (No cost to us).

Thanks to Alex Lindsay Junior we have acquired a variety of storage furniture which is being used to improve our storage space and to make store rooms more accessible.

During this period, we have moved on a number of chairs and mugs to the Lodging House Mission, Bibles to LHM and Kirkintilloch Hillhead and also taken the opportunity of disposing of clutter gathered over the years.

The Office is currently going through a refurbishment and again this office furnishing has been acquired via Alex junior and the fitting out of this room is being carried out by Alex senior and Bill West.

Danny McQuillan continues to look after the lighting and heating for all the activities we have using the halls and sanctuary.

Archie Malcolm continues to do the wee jobs no one else thinks of – putting out the bins and bring them back in after collection for example.

We are in need to create more storage for the food bank which continues to be a necessary part of our service to the folks in the surrounding communities and a plan is in place to increase this store which will result in a reduction of the space available on the stage area.

Thanks are due to all those mentioned who assist with the maintenance of our property and this year we particularly thank Alex Lindsay Junior for keeping his eye open for anything that may be of assistance to us as he clears out his employer's property.

Alistair MacKenzie
